

Who Uses: **Masterfeeds Beef Finisher Premix (507845)**

Progressive beef producers who require a supplemental mineral and vitamin premix, including salt, as a part of a high grain finishing program. Producers who recognize the role minerals and vitamins play in profitable beef production by maximizing dry matter intakes, increasing resistance to disease, increasing average daily gain and maximizing feed efficiency. Producers who wish to build an on-farm ration using this premix plus protein sources, grains and forages.

Description

Masterfeeds Beef Finisher Premix is a vitamin and mineral supplement that contains macro minerals (including salt), trace minerals and vitamins in an optimum balance to provide additional nutrition for cattle on finishing programs. When fed at recommended rate, the mineral and vitamin components in the ration will meet animal requirements with a reasonable margin of safety. Presented in granular form with mineral oil to help with palatability.

Features

- Calcium at 25%.
- Potassium at 5%.
- Sulphur at 2%.
- Contains a full complement of minerals and vitamins.
- Selenium at 15 ppm; Vitamin E at 200 I.U. / kg.

Benefits

Essential for bone structure, muscle contraction. Needed to offset low calcium content of most grain.

High level to promote intakes and performance of cattle on high grain-low forage diets.

Required by rumen microbes to synthesize protein from Urea.

Can be used as the sole source of minerals and vitamins. Can be used to build a ration on-farm with this mineral plus protein sources, grains and forages. Inadequate supplies of any one of the essential minerals can result in sluggish performance or increased health problems even though other nutrition is adequate.

Provides 1.5-3 mg Selenium and 20-40 I.U. of vitamin E per day when fed as directed. For improved immune function, enhanced disease resistance and improved fertility.

Feeding Recommendations

Mix with grain and feed so as to provide Masterfeeds Beef Finisher Premix at 100 – 200 grams per head per day as part of a nutritionally balanced feeding program.

Provide free choice salt and fresh, clean water at all times.

BEEF FINISHER PREMIX
(25-0-1)
M-507845

THIS FEED CONTAINS ADDED SELENIUM AT 15.00 MG/KG.

GUARANTEED ANALYSIS:

CALCIUM (ACT. %)	25.0	COPPER (ACT. MG/KG)	875
PHOSPHORUS (ACT. %)	0.0	MANGANESE (ACT. MG/KG)	2,000
MAGNESIUM (ACT. %)	1.0	ZINC (ACT. MG/KG)	2,150
SODIUM (ACT. %)	7.0	COBALT (ACT. MG/KG)	18
POTASSIUM (ACT. %)	5.0	IODINE (ACT. MG/KG)	48
SULPHUR (ACT. %)	2.0	VITAMIN A (MIN. IU/KG)	250,000
IRON (ACT. MG/KG)	1,000	VITAMIN D (MIN. IU/KG)	30,000
FLOURINE (MAX. MG/KG)	10	VITAMIN E (MIN. IU/KG)	200

A LIST OF THE INGREDIENTS USED IN THIS FEED MAY BE OBTAINED FROM THE MANUFACTURER OR REGISTRANT.

DIRECTIONS FOR USE: MIX WITH GRAIN AND FEED SO AS TO PROVIDE MASTERFEEDS BEEF FINISHER PREMIX AT 100 TO 200 GRAMS PER HEAD PER DAY TO BEEF CATTLE BEING FINISHED FOR SLAUGHTER ON A HIGH GRAIN RATION. FEED AS PART OF A GRAIN MIX OR INCLUDED IN THE TOTAL MIXED DIET. CONTINUE TO PROVIDE SALT FREE CHOICE. EXAMPLE FORMULA: MIX 20 KG OF PREMIX WITH 780 KG OF CORN AND 200 KG OF CORN GLUTEN FEED TO MAKE A BEEF FINISHING RATION. FEED THE RESULTING RATION AT 1.5% TO 2% OF BODY WEIGHT ALONG WITH CORN SILAGE AND/OR HAY OR HAYLAGE. CHANGES TO THE FEEDING PROGRAM SHOULD BE MADE GRADUALLY FOR ADAPTATION TO TAKE PLACE. FOR MORE INFORMATION CONTACT YOUR MASTERFEEDS REPRESENTATIVE.

CAUTIONS:

1. DIRECTIONS FOR USE MUST BE CAREFULLY FOLLOWED.
2. DO NOT USE IN ASSOCIATION WITH ANOTHER FEED CONTAINING SUPPLEMENTAL SELENIUM.
