

**Who Uses: Patriot 12% and 14% Horse Ration
(606105, 606106)**

Pellets

Boarding stables, recreational riders and performance horse requirements are all met with this feed.

Description

This pelleted feed is intended for pleasure/recreational and performance horses involved in breeding, growing or training. The three different protein levels offer more choices to balance with hay.

Features

- Supplies protein, energy vitamins and minerals.
- Contains 40 mg/kg copper.
- Contains added biotin.
- Contains a high level of Vitamin E.
- Contains chelated trace minerals.

Benefits

- Will maintain condition and health when fed along with hay.
- Involved in hemoglobin formation and bone development, both important for good health development.
- Involved with the integrity of the hoof, often stressed by the demands of competition.
- A powerful antioxidant to enhance immune response and improve tissue regeneration after strenuous exercise.
- For increased bioavailability of those nutrients essential for immune response, hoof health, bone and cartilage development.

Directions for Use:

Feed ½ to 1 ½ kg of Patriot Horse Ration Pellets per 100 kg of body weight, according to the amount of work performed, the condition of the horse, and the quality of hay or grass.

PATRIOT 12% HORSE RATION PELLETS

M-606105
