Whispering Sands Training Centre

Comes out on top!

Natalie Weichel's name is synonymous with success in the equine circles throughout western Canada. Owner and operator of Whispering Sands Training Centre, located just minutes out of Regina, you see her, and the horses she rides, place among the top at 50/50's, reining events and breed shows!

Specializing in training reining and western pleasure horses, Weichel contributes some of her success to a solid consistent training program, but also she ensures she feeds excellent quality feed, ample fresh clean water and of course 12% Surmount pellets. Regardless if it is her horse in training or a client's horse, she uses Patriot Surmount and is liking the results!!

"At any given time, I have between 16 - 20 horses in my barn for training. Both my clients and I want to have excellent results while under my care, so I am careful to ensure the feed I use is top quality. I like Surmount as it is a high fat, high fibre feed that does not affect their temperament and attitude," states Natalie. "Regardless if it is a young 2-year-old filly or a stud like Solanos Sugarman, the Patriot Surmount is an excellent ration that is keeping them all healthy and looking great," she concludes.

*Solanos Sugarman
Owned by Melanie Burns*

*Thank you Natalie Weichel of Whispering Sands
Training Centre for choosing
Masterfeeds Patriot Surmount to be part of your
winning program!*
