ROUND PENS available here

These unique new panels are designed with the horse person in mind, although it's lightweight, yet rugged design works for cattle as well.

Panels are made with 1 1/4" x .100 wall square tube frame and 1 x 1 x .100 wall square tube inside.

Horizontal bars turned to form a diamond shape for a unique look and added strength.

Panels are offered in 5 or 6 bar versions and come standard in dark green powder coated finish for extra durability and appearance.

Other colour options available upon request.

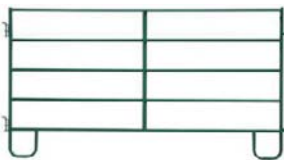

Panels have square top corners to eliminate so called "V"s between panels when joined together.

Another feature is the "Quick Connect" system that allows for faster setup and more versatility on uneven ground.

Arch ride thru gate is 7'6".

Number of panels required

- for 60ft round pen - 15-12ft panels or 18-10ft panels
- for 50ft round pen - 12-12ft panels or 15-10ft panels

Foaling Time Is Here

WE HAVE YOUR FEED

Frisky Foal™

To reduce weaning stress and promote steady growth, feed Frisky Foal™, a pelleted feed for nursing foals to weaning and up to one year of age. It encourages growth, development and improved immunity while weaning your foal away from milk.

Mare'N'Foal™

Balanced nutrition for your mare and foal in a highly digestible extruded form. Mare'N'Foal™ contains high levels of energy, calcium phosphorus, trace minerals and vitamins essential to the needs of a growing foal and a nursing mare.

Equine Developer™

Designed for foals from weaning to two years of age to promote balanced growth and the reduction of developmental problems. Versatile feed which provides the amino acids essential for gestation and lactation, as well as growth.
